COUNTERFEIT MONEY IS MADE

Rush County Farmer Lad Taken Into
Custody Today Admitted Mak-
ing Bad Money.

BAD CHARACTER PASSED IT

Roy Smelser of Gings Made Scape
Goat of Jim Dinkins, Who
Shoved the Queer.

By clever detective work of Police-
man William Pea, the den of a coun-
terfeiter was located in Rush county
and Roy Smelser, a youth of eighteen
years, who admits making counter-
feit money, was taken into custody
today. The young man did not ap-
preciate the gravity of the offense
and in a measure was innocently en-
gaged in the illicit and nefarious
practice. Luckily for him a halt
was called at this time as he was fast
falling in with several individuals
who with encouragement, was lead-
ing the young man into a place where
the government authorities would
soon have taken a hand and a prison
sentence would have been his ulti-
mate fate.

For several weeks counterfeit
money has been circulated in Rush-
ville and as yet the practice was in
the experimental stage. Nickels and
quarters, rather crude in make, were
found every day or two by merchants
and it has caused the local officers a
deal of trouble. As most of the
money was being passed in the west
end of the city, Policeman Pea took
up the case and has been shadowing
several fellows for two weeks, who
were under suspicion. Last Satur-
day, Grand M. Carr of the Grand
theater complained of receiving some
of the five cent pieces and the Chris
Fox saloon was another place where
the money was taken in. From these
two places Officer Pea hit a warm
trail, first learning who spent the
money and today succeeded in locat-
ing the person making the money and
the place where it was made

Jim Dinkins, a young man who has
been engaged in the junk business
here, is said to be the party shoving
the queer. However, he could not be
taken into custody as he has left the
city and is now believed to be in
Anderson. He had relatives in this
city, but on account of his bad traits
was not allowed to live with them.
Roy Smelser was seen by a represen-
tative of the Daily Republican and
told an interesting story of the affair.

Smelser said in part: "I made the
money, but I will swear it was not
for illegal purpose. I will tell you
how it came about. I found some
sand on the farm that was as fine as
flour. Everybody said it would be
good for moulding purposes so I
thought I would make some money
selling it. I have some machinery
where I tinker around, and in mak-
ing some repairs recently I found
some old babitt metal in a boxing. I
took it and melted it up and made a
mould of a nickel. I made a number
of the five cent pieces but never
passed any of them. I was just do-
ing it for an experiment and I told
several people about it. I never
tried to keep it quiet as I did not
think it was wrong. About two
weeks ago this fellow Dinkins came
to Gings and I showed him one of the
nickels. He asked to take one of
them along and I agreed after cau-
tioning him not to spend it. A few
days afterwards he came back and
had me make a number of them and
also had me make some quarters. I
asked him what he intended to do
with them and he said he wanted
to play some tricks on his friends.
Said he was going to nail them down
in bridges and other places and then
have some fun watching people try
to pick them up. After he promised

me he would not spend them I made
him about three or four dollars
worth. I asked what he did with the
nickel I gave him and he said he ac-
cidentally passed it in the Chris Fox
saloon. I told him to go back and
get it and he said he would. I now
realize that I might have got myself
into a peck of trouble, but anyone at
Gings will tell you that I did not try
to keep the thing quiet. I never saw
Dinkins before in my life until he
came to my workshop. I now learn
he is a pretty bad character. He
stayed to see me make the money
once and I think he did it to learn
how it was done so he could do it. I
never read how the government
makes money, but I have read some
counterfeit tales and I know it is
wrong. I will do all I can to head
Dinkins off because I think he in-
tended to take it up to make money
out of it. I remember now that an-
other fellow who was a friend of
Dinkins tried to get a cigar box full
of the sand but I did not let them
have it."

Smelser is counted a bright, in-
genious young man in the Gings
neighborhood and stands well with
the people there. They do not believe
he had any evil intentions in making
the money. He is a son of Marshall
Smelser, who lives in Texas. Mr.
Smelser made and invented a gas
engine that was said to be a marvel
and in many other ways was a me-
chanical and inventive genius.

Dinkins is said to be a bad charac-
ter, who has been around street fairs
and worked occasionally in the junk
business. The Anderson police will
be communicated with and if possi-
ble Dinkins will be rounded up and
made to explain.

BATTLES WERE FOUGHT AGAIN

Reunion of Fifth Cavalry Veterans
Adjourn After a Most Successful
and Pleasant Meeting.

Reunion Will be Held in Indianapolis
Next Year—Memorial Services
For Twelve Deceased Members.

The meeting of the Fifth Indiana
Calvary closed this morning with
memorial services and election of of-
ficers. George W. Duncan of Green-
field was elected president, Joseph
Johnson of Indianapolis vice-presi-
dent, and David Patty of Hamilton
secretary-treasurer. Indianapolis
was decided upon as the place of
meeting next year.

Twelve deaths have occurred in the
organization since the last meeting.
A resolution was passed in honor of
each member who had passed away
during the last year. The memorial
services were touching as no one of
them present knew whether his name
would be among the list of the dead
at the next meeting. Several good
short talks were made by visiting
members.

The camp fire held last night in the
Assembly room at the court house
was the most enjoyable part of the
meeting here. An address of wel-
come was delivered by Hon. J. M.
Stevens. Col. E. H. Wolfe respond-
ed in behalf of the cavalry. Other
brief speeches were made by Prof. J.
H. Williams, Capt. J. K. Gowdy and
others. The Rushville Glee club fur-
nished the music for the occasion.

THE WEATHER

Fair tonight and probably Friday.
Continued warm.

The Books Are Opened! Read! Meditate! Figure!

A local paper has asked that the county books be opened.
It has intimated that the disclosures might be startling. Such has
been the case.

The county tax levy is less than 50 cents on the \$100 and
is levied equally throughout the county. The township trustee,
together with his advisory board, levies the tax in his township,
and he and they are responsible for the levy.

The table below shows the levy in each of the townships,
seven of which are under Republican rule and five under Demo-
cratic rule. From the Democratic wail we would expect the
lowest rate in the Democratic townships.

What does the record show?

The average rate of taxes in the five Democratic townships
levied last September is **21 11/14 cents higher** than the average in
the seven Republican townships.

For the 1907 the average in the Democratic townships was
24 3/7 cents higher than in the Republican townships.

For 1906 the Democratic townships asked **36 39/70 cents** on
the hundred dollars MORE than the Republican townships, and
for 1905 they were **23 1/5 cents higher**.

Does this prove Democratic economy and Republican
extravagance?

You who live in Democratic townships can, by a little calcu-
lation, find exactly what Democracy in your township has cost
you

Notice the following table carefully and ask your Democratic
neighbor to explain. Hold him to the records.

PROVIDE VEHICLES FOR THE OLD PEOPLE

Committee Appointed to Furnish
Conveyances to Old Folks Day
Exercises.

"THE GLORY OF OLD AGE"

At the Main Street Christian
church next Sunday morning "Old
Folks Day" will be celebrated and the
pastor, Rev. R. W. Abberley, will
preach on "The Glory of Old Age." A
committee, consisting of Harry
Clifford, Jesse Drysdale, R. E. Wil-
son, Elmer Humes and W. A. Alex-
ander, has been appointed to see that
conveyances are provided for those
who will need them. It is hoped to
make it a day of joy and comfort to
the old people, and of helpful lessons
to the young in their treatment of
old age. The old folks will have seats
of honor in the front part of the
church.

WHAT HAS BECOME OF —

The old fellow who loafed around
the prune barrel in the grocery store
and would get up a match between
other fellows to spit at the neck of
a jug?

The little woman, with the paled
and pinched face, wearing a red
shawl, and who stood outside a sa-
loon and waited for her husband to
come out?

FATAL MISTAKE CAUSE OF DEATH

Miss Corrine Bundy Died Following
the Use of Carbolic Acid in a
Gargling Process.

DEMISE COMES AS A BLOW

Because of the widespread sorrow
and intense interest in the sad death
of Miss Corrine Bundy, the Republi-
can reproduces the following from
the Muncie Star. It should be stated
here that a sensational story in a
Cincinnati newspaper indicating sui-
cide, is wholly unwarranted. The
Star says:

Death claimed Miss Corrine Bun-
dy, a beautiful and popular young
Muncie woman, in such a sudden
manner yesterday morning as to
cause a profound shock throughout
the city. Being seen with two inti-
mate friends and her family until a
late hour Monday evening, and ap-
parently in the best of health, the
news of her demise at an early hour
yesterday morning, was a staggering
blow to the thousands of friends and
acquaintances of the family.

In brief, her death was superin-
duced by the use of too strong a so-
lution of carbolic acid as a throat
gargle for the relief of chronic ton-
silitis.

Mr. and Mrs. Earl Churchill, Mrs.
Lon Havens and Denning Havens of
this city attended the funeral today.

SUCCESSFUL WITH HIS HERD

Frank Cotton Has Returned From a
Trip Through South.

Frank Cotton of Manilla has re-
turned from Richmond, Va., where
his herd of Shorthorns was on exhi-
bition at the State fair last week.
As usual Mr. Cotton had splendid
success, receiving six first, five sec-
ond and one championship premium.
The herd is composed of eight head
only, but each one is a high grade
animal.

AFFINITY AGAIN IN THE LIMELIGHT

Myrtle Black Feels That She Has
Suffered and Wants a Balm
of Gold.

A MOST COMPLICATED CASE

Woman Driven From City by Wife
of Man Whom She Now Wants
to Pay Damages.

It is beginning to look like the
"affinity" case of U. G. Beaver and
Myrtle Black will get into the courts.
It is rumored that the Black woman
has employed legal counsel at Ander-
son, Indianapolis and Rushville and
will try to collect money for damages
she believes she has suffered by the
proceedings, saying she has been
driven from her own home.

As the matter has many new
phases, the outcome will be looked
upon with interest. It will be re-
membered that the first publicity
came when Mrs. Black wrote a let-
ter to Mr. Beaver and it fell into the
hands of his wife. The woman was
seeking an engagement with Beaver,
and straightway did Mrs. Beaver go
to wait on the Black woman and told
her a few things, laying it down to
her in plain terms, and in "black and
white" what she must do. She was
told to shake the dust of the city
from her feet immediately, and with-
out further ado she did as was re-
quested.

Mr. Beaver was seen about the
matter, and while he regretted that
it ever occurred and became public,
he declared he was in no wise to
blame. He said he had not given the
woman any encouragement to war-
rant her pursuing him and expressed
satisfaction that she had quit the
city.

Now the Black woman feels that
she has been grossly injured. An
Indianapolis attorney was here this
week making inquiries and it is
thought the woman plans to get some
money as a balm to her wounded
heart. What nature a complaint in
the case would be is a matter of con-
jecture. Some intimate that any
proceedings on her part would savor
of blackmail. Local attorneys re-
fuse to discuss the affair as they
probably hope for a compromise.
Mr. Beaver would probably stand pat
and refuse to enter into any negotia-
tions, as he contends he has been
wronged.

YOUNG MAN GOES ABROAD

Will Make Extensive Trip Through
Europe.

Eugene Miller, son of Mr. and Mrs.
B. F. Miller, left this evening for New
York City. He will sail from there
for Queenstown, Ireland, Saturday.
Mr. Miller will make an extended
tour through the British Islands and
also over Europe. He expects to re-
turn in about nine months.

MAKES ANOTHER SUICIDE BLUFF

Charley Wolfe, the "Suicide King,"
Makes the Eighteenth Un-
successful Attempt.

IS DRIVEN FROM RICHMOND

Former Rushville Painter Had Just
Been Dismissed From an In-
stitution in Dayton.

Do you really think Charley Wolfe
tries to suicide? During the past
year or two he has made over eigh-
teen attempts and his "self-destruc-
tion belt" takes in the Sixth district
and Dayton, Ohio. The latest in-
telligence from the Try-to-Die artist
comes from Richmond. The Item
says:

"Charles Wolfe, alias Frank With-
row, the 'poison king,' who executed
his customary stunt on Ft. Wayne
avenue, near Main street, at 8:30
o'clock last evening, was ordered
from the city this morning. He said
he was still suffering from a burning
in his stomach, but the police pooh-
pooed his assertion and showed the
nuisance absolutely no consideration.

"Wolfe had wet his lips from the
contents of a bottle labeled '50 per
cent. carbolic acid—1/2 water.' He
was frothing at the mouth when Pa-
trolman Hebble forced some alcohol
into his throat. He was taken to
Reid Memorial hospital, but was re-
fused there on account of his vici-
ousness and previous bad record. He
was returned to the city jail and his
suspenders taken from him, because
he said he would hang himself with
them if given a chance. It was the
fourth affair of the kind in which he
figured here, Wolfe arrived yester-
day from Dayton, where he tried
'killing himself' six times.

"He said he wanted to rejoin his
wife and two children south of Con-
nersville, after having been absent
from them since June. The records
show twelve separate attempts at
self-destruction in that time. The
police regard the man as mentally
deficient."

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

MAY BREAK UP A NOTORIOUS GANG

Aged Horsethief Has Been
Sentenced at Goshen.

THOUGHT TO BE HEAD OF GANG

Byron Bemus, Seventy Years of Age,
Whose Life Will Probably Be Rounded Out in Prison, Is Believed by the Authorities to Be the Brains of an Organized Gang of Horsethieves That Has Long Been Operating in Indiana, Illinois, Ohio and Michigan.

Goshen, Ind., Oct. 15.—Byron Bemus, who is believed to have been the head of an organized gang of horsethieves, with relay stations in Illinois, Indiana, Michigan and Ohio, has been sentenced to the Michigan City penitentiary by the Elkhart circuit court. As he is nearly seventy years old, he will probably spend the rest of his life behind prison walls. He was caught in Toledo last summer by the Toledo police, who were watching a livery barn supposed to be a fence for stolen horses, when Bemus drove in with a horse stolen at Elkhart.

THAT HUDSON MINE CASE

Lewis to Submit It to International
Executive Board Monday.

Terre Haute, Oct. 15.—Indiana coal operators have been informed that T. L. Lewis, international president of the United Mine Workers, will submit the Hudson mine case to the international executive board at a meeting to be held in Indianapolis Monday. The officials of District No. 11, with whom President Lewis has been in a deadlock disagreement over the strike for more than two months, have not been notified by him of a hearing by the executive board. The district officials still insist that the mine driver be reinstated and paid for all time lost before the 170 men who struck because he was discharged will return to work pending consideration of the grievance of the driver.

President Lewis took away the charter of the Hudson local, but the district officials have continued to recognize the men of that local as in good standing. Therein will consist the charge of insubordination on the part of the district officials, should Lewis decide to prefer a charge against them before the executive board. Those who are best acquainted with Lewis's temperament have had no doubt that eventually he would force the district officials to comply with his order or cause their expulsion from the organization. It is said that he moves slowly, but that time never weakens his determination to carry out his policy.

Struck by Chicago Flyer.

Hammond, Ind., Oct. 15.—While on his way to the postoffice at Gary to send \$200 to his wife in Hungary, G. Gaetno was struck by the Chicago flyer and instantly killed. Gaetno was riding in a wagon with four companions. The engine struck the wagon square and spectators thought that all the men were killed, as they were thrown on both sides of the train forty feet. Instead none was injured except Gaetno. Both horses were killed and the wagon was smashed into a thousand pieces.

Inconsiderate Thieves.

South Bend, Ind., Oct. 15.—Burglars hurled a brick through a \$500 plate glass window in Romadka Brothers' establishment in order to steal \$3. There was a display of purses on exhibition and protruding from the side of one book were three \$1 bills. Only the money was taken. The store is within a block of the center of the city, and the noise caused by the breaking of the glass could be heard for some distance. When officers arrived, however, no one was in sight.

Had Outside Assistance.

Delphi, Ind., Oct. 15.—George Booz and Clem Ray, two young men of the northern part of this county, arrested some time ago and placed in jail on a charge of robbing a store at Burrows, this county, made their escape. A piece of paper found on the floor, on which was a sketch of the key to their cell, furnishes the only clue to their means of escape, and it is thought that they had outside assistance.

Old Soldier Convicted.

Marion, Ind., Oct. 15.—William F. Dreisman, Soldiers' Home veteran, who shot and killed George W. Reep, another veteran of the home, Sept. 8, was tried in the circuit court on charge of murder. A special plea of insanity was entered for the defendant, but the jury found him guilty as charged and the court sentenced him to life imprisonment.

Shot Friend in Drunken Quarrel.

English, Ind., Oct. 15.—Jerry Moore shot Bennett Miller over a game of pool. Both were drinking and had always been the best of friends. Miller began throwing pool balls at Moore, when Moore shot him through the intestines. Miller is fatally injured.

James S. Kennedy, the New York banker, has given \$1,000,000 to the Presbyterian hospital of New York, of which he is president.

AN IOWA TRAGEDY

Young Man Shot Sweetheart and Self
in Home of the Girl.

Shenandoah, Ia., Oct. 15.—Harley Bright, aged twenty-four, son of a prominent business man of this place, is dead and Miss Esther Cook, aged fifteen, his sweetheart, is fatally wounded as the result of what is believed to have been a murder and suicide by Bright. The shooting occurred late yesterday afternoon at the Bright home when nobody but the young man and Miss Cook were in the house.

What led up to the shooting is not known, but it is stated that the couple had quarrelled over Bright's attentions to another girl.

THAT KEEFE STORY'S SLIM FOUNDATION

Tim Healey Got It In a Round-
About Way.

New York, Oct. 15.—The Democratic national committee has issued a statement quoting Timothy Healey, president of the International Brotherhood of Stationary Firemen, as authority for the allegation that Daniel J. Keefe had been promised by the president appointment as commissioner general of immigration in return for the Detroit labor leader's support of Taft. The national committee had promised to make known its informant if the charge was denied, as it has been both by Keefe and at the White House.

The national committee quotes Mr. Healey in part as follows: "I was in Washington Wednesday last week on a matter dealing with our organization, which brought me in contact with an official of high standing in the government service. He said to me, 'Dan Keefe has been selected for commissioner general of immigration.'"

"Is that so?" I said.

"Yes; the job is his," he replied.

"I asked him how he knew and he told me that his informant was a member of the president's cabinet and knew what he was talking about."

"This information was not given to me in a confidential manner, but I will not give my informant's name, for it is plain to see what would happen to him if his name came out."

"There is not any doubt in my mind but that the statement that the president offered Keefe the position and that Keefe agreed to accept is true. Perhaps the offer was not made at the conference on Oct. 3 last, but I believe it has been made."

Mr. Taft in Ohio.

Wheeling, W. Va., Oct. 15.—Judge Taft last night concluded his three days' campaign in Ohio. "The situation in Ohio is entirely satisfactory," said he, "and no one has any reasonable doubt but that the Republican majority will be a substantial one. I certainly have no doubt on the subject myself." Steubenville and Wheeling furnished the big audiences of the day, although at each of the nine stops there were crowds and enthusiasm. The Central market house was cleared at Wheeling and there last night the candidate addressed an immense audience.

The Cubs Still Champions.

Detroit, Oct. 15.—By defeating Detroit Wednesday afternoon, 2 to 0, the Chicago team of the National League retains its title as the champion baseball team of the world. The present series differed but little from that of last year. In the previous series Detroit managed to get one tie game and then went down in four straight defeats. In the present series Detroit snatched one victory out of the five games played. The paid admissions were only 62,232 for the five games, and the receipts totalled but \$94,976 as compared with \$101,000 last year.

With the transmission of the first Telepost message from Boston to Portland, Me., handed to the Telepost operator here by Mayor Hibbard of this city, the Telepost was put into operation between the two cities, the line including the following way stations: Lowell, Mass.; Lawrence, Mass.; Haverhill, Mass.; Exeter, N. H.; Portsmouth, N. H.; Dover, N. H.; Biddeford, Me.; Saco, Me., and Old Orchard, Me. In each of these cities there is now a Telepost office prepared to receive and transmit messages.

The Telepost transmits and receives messages at the rate of a thousand words a minute, from twenty to forty times as many as any other telegraph system now in operation. The Telepost utilizes the full carrying capacity of the wire, while others get only 10 per cent.

The Telepost company gathers messages and sends them on its own lines. It delivers the messages itself by its own special delivery service, the messages then being called by the familiar name "telegram," or it relies for delivery upon the well organized post-office department run by Uncle Sam. In the latter case the message is known as a "Telepost." The company also receives messages through the post-office department, for transmission to near or distant points—that is, a man living in one of the cities named or within mailing distance of it may write out his telegram or his "Telepost," drop it, addressed to his correspondent near or far, in care of the Telepost company. The latter will attend to its prompt and speedy transmission. The telephone may also be utilized by the Telepost patrons.

In addition to telegrams of the new style and Teleposts, the innovation in the wire world includes the "telecard," which is to the telegram and the Telepost what the postal card is to the letter. In other words, it is a shorter telegram transmitted at a lower rate.

The rates charged by the Telepost company are uniform whether the distance traversed by the message is ten miles or a thousand—twenty-five words for 25 cents delivered by the Telepost messengers or fifty words for 25 cents brought to your door by one of Uncle Sam's gray-coated men. The charge for the telecard is 10 cents for ten words sent to any place reached by the Telepost company's lines.

A special envelope of odd size and attractive design makes it easier for the mail distributors to recognize and handle Teleposts. The telecard is also of special design in order to facilitate postoffice handling.

While the service inaugurated today includes only the cities named above, the Telepost company has already closed contracts to make rapid extensions from Boston in other directions.

The scene in the Telepost offices at the opening of the new service was a most interesting one. The audience included, besides Mayor Hibbard, a large number of men prominent in the business and professional life of this city. The newspaper men who were present not only looked upon the putting to practical use of the invention of Patrick B. Delany as an interesting item of news, but as one that is expected to affect vitally their own business of news gathering and publishing. The Telepost company intends to establish at its offices in the various cities a bulletin service giving the most important news items of the day in skeleton form, referring the readers to the newspapers for details.

The first message transmitted over the Telepost lines was that of Mayor Hibbard to the mayor of Portland, Me., congratulating the latter upon the inauguration of the new system. The first Telepost message will be preserved as an interesting memento of the occasion. Among those present were Patrick B. Delaney, the inventor of the system; H. Lee Sellers, the president of the company; R. H. Sellers, its secretary and treasurer; and J. W. Larish, its electrical engineer. The various operations of the Telepost were fully explained and aroused the highest interest.

The Telepost system has won the highest commendations from expert authorities in electricity. Thomas A. Edison, with whom Mr. Delany worked years ago, said of it, "The system is its entirety so simple that it is perfectly fool proof."

Nursing Mothers and Over-burdened Women

In all stations of life, whose vigor and vitality may have been undermined and broken-down by over-work, exacting social duties, the too frequent bearing of children, or other causes, will find in Dr. Pierce's Favorite Prescription the most potent, invigorating restorative strength ever devised for their special benefit. Nursing mothers will find it especially valuable in sustaining their strength and promoting an abundant nourishment for the child. Expectant mothers too will find it a precious help to prepare the system for baby's coming and making the ordeal comparatively painless. It can do no harm in any state, or condition of the female system.

Delicate, nervous, weak women, who suffer from frequent headaches, backache, dragging-down distress low down in the abdomen, or from painful or irregular monthly periods, gnawing or distressed sensation in stomach, dizzy or faint spells, see imaginary specks or spots floating before eyes, have disagreeable, pelvic catarrhal drain, prolapsus, anteversion or retroversion of the uterus, or other ailments of womanly organs from weakness of parts will, whether they experience many or only a few of the above symptoms, find relief and a permanent cure by using faithfully and fairly persistently Dr. Pierce's Favorite Prescription.

This world-famed specific for woman's weaknesses and peculiar ailments is a pure glyceric extract of the choicest native medicinal roots without a drop of alcohol in its make-up. All its ingredients printed in plain English on its bottle wrapper and attested under oath. Dr. Pierce thus invites the fullest investigation of his formula knowing that it will be found to contain only the best agents known to the most advanced medical science of all the different schools of practice for the cure of woman's peculiar weaknesses and ailments.

If you want to know more about the composition and professional endorsement of the "Favorite Prescription," send postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for his free booklet treating of same.

You can't afford to accept as a substitute for this remedy of known composition a secret nostrum of unknown composition. Don't do it.

HOW TO CURE SKIN DISEASES.

Eczema, pimples, dandruff and itching skin diseases are of local origin and are caused by germs. In order to cure these diseases the germs and their poisons must be driven to the surface of the skin and destroyed. Salves and greasy lotions may give temporary relief, but they do not destroy the germs that cause the disease. A St. Louis chemist has discovered a clean vegetable liquid remedy that will draw the germs and their poisons to the surface of the skin and destroy them, leaving a nice, clear, healthy skin. This remedy is known as **Zemo**, and by its many remarkable cures has attracted the attention of the leading scientists and skin specialists of this country and Europe.

Zemo has been given the most cordial reception by the public of any similar remedy ever produced, and it is recognized as an honest medicine that makes honest cures.

Zemo is for sale everywhere. You can obtain a trial package free by writing to the E. W. ROSE MEDICINE CO., St. Louis, Mo. Mr. F. E. Wolcott has secured the agency for **Zemo** in Rushville, and will gladly show you proof of some of the wonderful cures made by this remarkable remedy.

Everything points to the fact that the brewers and saloon men are preparing to make a most desperate effort to elect Marshall and to defeat the Republican candidates for the legislature. The work, however, is not done with as much boldness and openness as was characterized by the work done before the passage of the county option law. The liquor alliance has discovered that it made a mistake in taking such a prominent part in the campaign as was taken at the beginning. Therefore what they are doing is done as much as possible under cover. Under the guise of preparing to vote to prevent the banishing of saloons from the Indiana counties under the new law, the combine of brewers and liquor men generally are bending their efforts to the work of controlling the next governor and incoming legislature.

There are thousands of business orders marked: "Stop if Bryan is elected." If wage-earners doubt this statement let them investigate the matter for themselves in the nearest industrial circles.

The theories of Bryan have been exploded by the test of experience. The American people will not throw away the solid certainties of today for the fallacies of tomorrow, especially when those fallacies have lost even glitter.

When the Democrats dream of carrying Indiana they think of it as a State of literary fiction; when it has gone Republican, they will wake to the fact that it is a State of living reality.

The patent activity of the brewery combine is calculated sorely to disappoint the trusting citizens of Indiana who have been hugging the fond delusion that the passage of the county option law has had the effect to drive the matter out of politics. The liquor alliances, instead of accepting the passage of the county option bill as final, has renewed its efforts to defeat the Republican candidate for governor and to elect a legislature that may be depended upon to repeal the county option law and to pass such legislation as may be to the interests of the liquor traffic in the State of Indiana. It behooves Republicans to redouble their efforts in behalf of the Republican ticket so that brewery and saloon dominance in politics may receive its death blow.

A new plan of the liquor interests has just come to light which is known as the "blocks of five" scheme. Each saloon keeper in Indiana for instance, is expecting to deliver five Republican votes against James E. Watson and against the Republican legislative candidates of his own district. Not only is every saloon keeper to deliver five Republican votes, but every bartender, every porter, every brewery wagon driver, every brewery employe, in fact, everyone connected with the liquor traffic is to be called upon to deliver five Republicans. If the brewers can get their friends to come through in this way they feel that they can overwhelmingly defeat the Republican ticket. While the Democrats are lining up their saloon allies it is up to every good citizen who does not wish to see the State government in the hands of the brewers to make himself a committee of one to get five Democratic votes for the Republicans and temperance.

Wealth and poverty are relative terms, and what might to one person seem grinding poverty would to another mean opulence. To the man who has been out of work for months and reduced to the starvation limit, steady employment at a dollar and a half a day would be most welcome, while the same amount to a person of means would not be worth considering. For instance, Mrs. Howard Gould has publicly stated in court that she cannot possibly live on \$25,000 a year; that the smallness of the amount humiliates her and subjects her to many annoyances. Now to the great majority of people \$25,000 would be a most welcome fortune and there are many who live comfortably on the interest. But, as we have said, wealth and poverty are relative terms and everything depends on circumstances and the consequence angle of vision.

Walker Township
Has Candidates
Contributed by a Manilla-ite.

As the election draws near the campaign waxeth hot and the candidates seeketh whom he may coddle into casting his little ballot in his favor, but in the language of "Uncle Remus" the voters "lay low and say nuthin'." Even Byron Westerfield's efforts through the columns of the American only creates a momentary excitement in Walker. Our candidate for sheriff finds it necessary to "Be-about" among 'em daily and is confident he will ultimately land in jail. Edgar Stiers looks out of his school room window and hopes for the best, but still sticks to his post following the old adage of "a bird in the hand, etc." Lou Mull is on the go, chasing them down in his automobile. He thinks he has his opponent taking to the woods, but he may have "Moore" to contend with than he is looking for before the race is over. Jesse Shelton just goes around laughing and jolly as if he had a sure thing even in the face of township extravagance and the local option law. Roy Carr can't leave a good horse to talk politics and has about concluded to let it go for what it is worth. We had to look up the newspaper to see who the opponents of Messrs. Shelton and Carr were, and there is no doubt that Mr. Ellison and Mr. Gunning are just waiting to come in on the home stretch and make the boys show what they are made of at quitting time. Walker township is pretty well represented in the battle but we can hardly hope that all of our candidates will be elected. All we can do is to wait and hope that those of them who get more votes than his opponent will be elected and will render efficient service to their constituents.

What Our Neighbors
Are Talking About

NOTHING LIKE IT.
(Columbus Republican.)
It would appear from last night's demonstration that the brewers and saloon keepers do not reflect the sentiment of the people generally. Such another outpouring of the people never greeted a candidate for any office at a night meeting in Columbus. There is no equivocation or evasion about James E. Watson. Fearlessly he states his position on questions of public importance. The public has a right to know just exactly how a candidate for the office of governor stands on questions that affect the whole people. Jim Watson tells them without "ifs" and "ands." How striking the contrast between his attitude and that of one Thomas R. Marshall, whom the brewers and saloonists of the State are booming for the governorship.

WHEN RALSTON WITHDREW.
(Liberty Herald.)
The intelligent, self-respecting voters of Indiana will not elect a man for governor who in advance of election gives undoubted evidence that he is bound in an alliance with Tom Taggart, Crawford Fairbanks, the brewery and liquor league combine. And such is the unfortunate situation with genial, eloquent Tom Marshall of Columbia City.

THEY WERE BUSY HERE TOO
(Connersville News.)
A shrewd and probably effective method of getting information on the state of public sentiment is being worked in this city by circulation agents of the Indianapolis News. These agents are making a house-to-house canvas, soliciting for that paper. But whether a subscription is secured or not, the agent exhibits both Taft and Bryan buttons and invites the person seen to take his or her choice free of charge. It is natural that the button bearing the likeness of the candidate whom the "men folks" favor will be chosen in each case. When the selection is made the agent notes in his little book whether a Bryan or a Taft button has been chosen. Nothing is said about politics and the purpose seems to be to gather a more or less accurate

rate poll in this manner without the real purpose of the canvas being made known. As the name of the householder is not taken except when a subscription is secured, the information would be of little use for political committees.

NEW LINE OF MARCH.
(Connersville News.)
Finding nothing to attack in the personality of the Republican candidates for President and governor the enemy is now butting out its brains against the armor of Theodore Roosevelt and Frank Hanly. Neither one is running for office and neither one can be in any way injured by these shafts of malice.

NOVEL PARTIES
FOR HALLOWE'EN

Although Many Were Given Last Year, They Will be Eclipsed This Season.

MAKING ARRANGEMENTS NOW

Hallowe'en, that favorite old time holiday, comes on the 31st of this month, two weeks from next Saturday. Last year it surpassed all other holidays or festival events of the season for the number of social events given in this city. There were no less than thirty Hallowe'en companies given and reported in the Daily Republican. This number may be exceeded this year. Several are planning the parties already. This year the usual decoration of fodder and pumpkin jack-o'-lanterns will prevail but numerous new ideas will be introduced. Tin-foil will figure prominently in the adornments if it can be secured and some of the make-ups will be of a new hideous type. The Yama Yama, devil, gingerbread man, ghosts, goo-goo man, scare-crow and Englishmen make-ups will be among the novelties which are to prove more up-to-date. Two or three dances and numerous private social events have already been planned.

Ground Plowed up by Farmers Who

in Many Spots.

In many parts of Rush county this week fire is raging, burning grass, leaves and fences and out buildings and causing the farmers no end of trouble and anxiety.

Along the I. & C. traction line yesterday acre after acre of meadow land was burned of all vegetation and the farmers were obliged to fight it against a strong wind and uneven odds.

From Glenwood comes the report of a fire near there that had all the aspects of a prairie fire. A spark from a railroad train set fire to the dry vegetation on the farm of Edward Dolan and before the conflagration could be checked over eighty acres was reduced to a blackened spot. At one time there was danger of the home and barns of Mr. Dolan burning down and the neighbors who so valiantly assisted the unfortunate farmer were obliged to send to Glenwood, Fairview and Falmouth for help. Mr. Dolan's home was only saved when the ground was plowed up, breaking the spread of the fire. The flames came by leaps with every wind, pressing forward with a flaming, devouring tongue like that of a huge serpent, driving the men back who were fighting against the odds, and was within thirty-five feet of the Dolan home when assistance came and the conflagration checked.

SCHOOL NOTES

Prof. J. H. Scholl.

The Senior class which is the largest in the history of the school is to be commended for its public spirit in bringing to the city first class entertainments. Victor's Venitian Band, at the Grand theater, October 29, at 3 p. m. will be a rare treat for all who hear it. The band gave universal satisfaction last year and will no doubt draw a large crowd this year. Admission, adults, 35 cents; pupils in the schools, 25 cents.

The foot ball team of the high school is doing a good work in placing athletics upon a high plane and furnishing an opportunity for recreation and physical training. On the other hand the boys are maintaining excellent grades, and the girls are enthusiastic in their support of the team. It will do one good to see the girls singing and cheering at the game here Saturday.

Mrs. Maud Hudelson began work as a teacher in the high school Monday morning. The work is now well distributed, giving to each pupil an ideal opportunity for reciting and individual assistance.

The reports for the first month of school is full of interest. A few summaries are here given:

AMUSEMENTS

A new feature will be inaugurated at the Vaudet theater Thursday, Friday and Saturday nights of this week. In addition to the regular bill local views will be shown. The pictures at these performances will be snap shots taken at the recent Gun club tournament. Local shooters as well as some of the crack shots of the country will be shown in action.

A Costly Wall.

A wall which it is estimated will cost nearly a million sterling is in course of construction by the British admiralty at Spithead. Night attacks on the harbor by torpedo craft have shown that it is possible for these insidious vessels of war to creep unobserved along the shore, and the object of the wall is to divert all navigation through one recognized channel, which can easily be covered by the search lights. The wall will consist of great blocks of concrete, each weighing sixty tons, which are being placed at intervals of a few yards along the shallows to the fort.

Vessels move faster through deep water with the same amount of power.

THE MAIN QUESTION

With some people is whether Bryan or Taft is elected and others whether Jim Watson or Tom Marshall carries the State, and still others whether the Cubs or Tigers win the World's Championship of the base ball world.

But the Main Question with all of us is where to get that shoe we want to wear. We will tell you to come here, for we have the Best Line of Good Winter Shoes

we ever had.

Come and let us show you, whether you live in Missouri or any other State. FOR MEN we have high and regular cut in Tan and Black. The high cuts range in price from \$2.50 to \$6.00 the pair and every pair is guaranteed to be worth even more than we ask for them. The regular cuts run from \$1.50 to \$5.00 the pair.

We have for the WOMEN, MISSES and CHILDREN the best line of Shoes that is in the city. Take a look at the new Directoire Boot made of Tan Willow Calf, 12 inches in height, Blucher lace, brass eyelets, and a large strap and brass buckle at the top. Something swell it is, and the price is only \$4.00. Also Patent Colt and Gun Metal in the high cuts. Wine, Tan, Black and Ox-blood in the latest street boots, price \$3.50 a pair.

BRING THAT BOY IN. Let us put a shoe on him and after he wears it, and if you say it is not the best shoe he ever had for the money, it won't cost you a cent.

Give us a trial and we will convince you of the truth of our assertions.

Lady Betty Across the Water

By C. N. & A. M. WILLIAMSON * COPYRIGHT, 1906, BY McCLURE, PHILLIPS & CO.

Mrs. Ess Kay's nose turns down and her brother's turns up, which is the principal difference in their features, and his makes him look very impudent, though rather clever and amusing.

"My sister wrote me about your dimples, Lady Betty," said he when I

Nobody was there except a young man in evening dress.

smiled, and I screwed my mouth into prunes and prisms as quickly as I could.

"I should have thought such things were hardly worth writing about," said I.

"My impression is that they're worth about a million dollars an eighth of an inch," he replied, "and I bet they'd fetch that in a bear market."

I began to wish that Mrs. Ess Kay or Sally would come, for I'm not used to having persons who have just introduced themselves make remarks on my dimples or other features.

"Don't be mad with me," he went on, "for I shall think I've estimated them too low. On mature consideration as we soldier chaps say at a court martial, I should be inclined to set them higher. If you'll just show them again!"

"I think, if you don't mind," said I, "that I'd rather speak of the weather."

"I'm afraid you're not used to Americans," said he.

"I've met several, crossing, but none of them talked to me about—such things," I replied rather primly.

"If they had I should have challenged them," he retorted. "While you're staying with my sister I consider myself a sort of guardian of yours, and part of my duty will be to keep off men—other men—with a stick, you see."

"No, I don't see," said I. "Not that there will be the least necessity for you to do anything of the sort."

"Oh, won't there? Well, you just wait till you get to Newport, and you'll find out differently. I've applied for leave on purpose to help Kath protect you, and I expect to put on a suit of chain armor under my clothes. But first you're coming to visit me at West Point."

"I don't think I am," I said.

"Oh, but you are. It's a promise of Kath's. And shan't I be proud to show you around? You shall see Filtration Walk the first thing. It's what the ladies admire the most at the Point. Perhaps you've heard of it?"

"No," said I. "And I never heard of West Point. Is it a suburb of New York?"

"Not much. It's our American Sandhurst. But you English people don't know anything about this side. I guess, now, you think that Florida is in South America?"

"I haven't thought about it yet," I replied.

"That's right. I don't ask anything better than to teach you the geography of the United States. We'll begin with Filtration Walk. But see here, Lady Betty, that rose you've got on isn't a good sample of what we can grow over here. Didn't that maid of my sister's take you something a little better from me?"

"Something much bigger and grander," I said, feeling loyal to my poor white bud. "I was meaning to thank you."

"Don't do that; the things aren't worth it. I only wanted to know whether that French female had played me false or not. But here comes my sister. I wish she'd taken longer to do up her back hair. Now, I'll give you your wish and talk about the weather. Mighty hot day, isn't it? Won't you have a cocktail? I'd just finished mine when you came down."

"Of course Betty will have a cocktail. We all do before dinner," said Mrs. Ess Kay, sailing toward us in a trailing white film of lace.

But Betty didn't have one, though at this moment several little glasses appeared on a tray. I was sure that mother would not approve of cocktails for me, as it sounds so fast for a young girl who isn't yet out. When I

excused myself Mrs. Ess Kay laughed and said, "Then what about that sherry cobbler?"

While I was trying to think what she meant Sally came into the hall, and immediately after I was surprised by a kind of musical moaning which began suddenly and kept on for a long time.

"That's the Japanese gong," said Mrs. Ess Kay when I looked round to see where the sound came from. "It's for dinner. Potter, give Betty your arm."

I was glad she didn't use that nickname I'd been thinking of, for if she had I should certainly have laughed.

We began dinner by eating pinky-yellow melons cut in half and filled with chopped ice. I thought at first that it must be a mistake and they ought to have come in at dessert, but everybody else ate theirs without appearing disconcerted, so I did mine and it was good. So were all the other things that followed in a long procession, though they were very strange, and some of them I shouldn't have known how to eat if Mr. Parker, whose place was next to mine, hadn't told me.

We had bouillon partly frozen instead of soup, and then came the most extraordinary little fried animals which quite startled me, they were so like exaggerated brown spiders, done in egg and breadcrumbs. "Soft shell crabs, dear child," said Mrs. Ess Kay, "and you eat every bit, down to the tippest end of his claw."

I should never have managed the green corn, which grows like lots of pearls set close together in rows on a fat stick, if Mr. Parker hadn't scraped all the pearls off for me with a fork and put butter and salt on them. I liked him a little better after that, for he did the thing with great skill. When I had got so far nothing could surprise me, and I didn't turn a hair when I found that I was expected to eat pears cut up with salad oil. But they were alligator pears, and when you tasted them it appeared that they had nothing whatever to do with the fruit kingdom. Best of all I liked the watermelon which came at the end, cut in little balls, looking like strawberry water ice and soaked in champagne. I hope that all the things to eat in America won't be so nice or I may grow stout before I go back, and Vice says it is better for a girl to hang herself.

It was very trying, too, to find that I was keeping every course waiting. I've never been accused of greediness at home, though I've often been made to feel guilty of most other sins in the calendar, but I did feel queer when I began to realize that everybody else had finished what was on their plates, when I'd just about discovered what the thing was. It made me so uncomfortable to see them all leaning back waiting for me, after their plates had been whisked away, that I took to bolting the rest of my food, and by the time we'd got rid of nine courses in about half an hour I felt qualified to write the autobiography of an ananconda.

As for the iced water, I had intended to refuse it at any cost, because Vic and mother both solemnly warned me that it made all the difference between a complexion and mere skin. But the minute I landed I began thinking hard about iced water, and I soon discovered that when you are in America a comparatively small consideration like a complexion would never keep you from drinking it. In fact, nothing would. You feel as if you must drink iced water, pints of iced water, in rapid succession, if not only your complexion, but your whole face were to be swept away in the deluge. Once you have got the taste nothing can quench it but iced water, more iced water and still more iced water!

After dinner, while we were having heavenly Turkish coffee in the fountain court, who should come but Mr. Doremus. It seemed to me a funny time to call, but apparently the others didn't think it out of the way. He wanted us to go to some theater on a roof, and I should have loved it, especially when Mrs. Ess Kay said you didn't get sinuses on your nose as you would if you sat on a roof in London, a thing which I never heard of anybody except cats doing. But she was tired, and I suppose it would have been ladylike for me to be, only I was much too excited. So Mr. Doremus stayed, and he and Mr. Parker talked more slang in an hour than I think I ever heard in my whole life, though I have always considered Stan talented in that way.

But Stan's slang and Vic's are quite different from American slang. In America you build up your whole conversation out of it, and it's wonderful I lounged for a notebook while those two men were talking to put every thing down, and I felt if people were often going to be as funny as that I should need to go home soon to rest my features.

When I go home I shall probably have collected so much slang in my pores that I shall talk about putting on my "glad rags" when I'm going to dress for dinner; my life will be my

"natural." I shall call Stan's motor car the blue assassin or the homicide wagon; I shall say my best frocks are "mighty conducive;" I shall get bored by poor Mr. Duckworth, our newest curate, and tell him he's "the limit;" I may even take to abbreviating my affirmatives and negatives by saying "yep" and "nope" when I'm in a hurry, but if I do fall into these ways, I tremble to think what may be the effect on mother.

To be continued.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablets—coaxes blood pressure away from pain centers. Its effect is charming, pleasantly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruiise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

RUSSIA MAKES ANOTHER HIT

Playing For Turkey's Favor, the Czar Also Jollies England.

CONFERENCE OF THE POWERS

Coming Meeting Will Be Marked by

a Discussion of the Mere Question of Compensation to Those Who Have Claims in That Direction, but the Important Question of the Dardanelles and the Key to Southeastern Europe Will Be Taken Up Separately by Russia and Turkey.

London, Oct. 15.—According to what apparently is an inspired statement with regard to Russia's position, which appears in the Times this morning, a practical agreement has been reached by M. Isvolsky and Sir Edward Grey, under which the conference of the powers will discuss the question of compensation to Turkey, Serbia and Montenegro, but the Dardanelles question will be left for separate negotiations later between Russia and Turkey.

Russia agrees with the Western powers that the compensation given to Serbia and Montenegro should not be at Turkey's expense, and holds that it is to Europe's interest to facilitate in every possible way Turkey's heavy task in completing the constitutional reforms. According to the statement Russia desires a revision of the agreements concerning the Dardanelles, but does not wish to make the revision a part of the conference program or to force it upon Turkey.

On the contrary Russia agrees that a revision is possible only with the consent and good will of the Turkish government, and as a result of future negotiations which it is hoped the British government will facilitate and that an arrangement could be reached with the help of all the interested parties, which would give Russia all she requires without menacing the interests of other powers. In addition, by removing a long-standing Russian grievance, it would contribute to the consolidation of the Anglo-Russian understanding and the establishing of real friendship between Russia and Turkey.

"M. Isvolsky's departure," says the statement in the Times, "was delayed in order to complete the details of the agreement, and when he returns to St. Petersburg he will make an important statement to the duma explaining the Buchau conference and making clear not only that he had consented to the annexation of Bosnia and Herzegovina, but that he expressly warned Baron Von Aehrenthal that the position of these two provinces was an European question which could not be settled by Austria and Turkey."

Will Not Pay Second Ransom. Paris, Oct. 15.—A special dispatch from Sofia to the Matin quotes the premier as saying that Bulgaria would refuse to make pecuniary compensation in return for recognition of her independence. "We have not proclaimed Bulgaria's independence," said the premier, "in order to ransom her for a sum of money. If we must ransom Bulgaria again we prefer that it be with blood."

Tammany's Contribution. Chicago, Oct. 15.—The campaign fund of the Democratic national committee and the names of all contributors of \$100 or over was made public by Treasurer Herman Ridder in New York today. Since the publication last Thursday of the contributors of \$500 and over, together with the total amount of the fund then in the committee's treasury, there have been several large contributions and the total amount is now about \$245,000. After today the committee each day will publish the larger contributions. The bulk of the Democratic campaign fund has been raised by dollar contributions to the Democratic press. The largest single contribution which was made this week was \$10,000 from Tammany Hall.

Mr. Bryan in Nebraska. Hebron, Neb., Oct. 15.—The second day's tour of Nebraska by William J. Bryan was brought to a close at this place last night. Twenty-two speeches were made during the day by the Democratic candidate, varying in duration from ten minutes to one hour. It was by far the most enthusiastic day for Mr. Bryan during the trip. With the conclusion of his work Mr. Bryan expressed himself as being greatly pleased with his reception in his home state during the day, saying that his audiences were larger and more enthusiastic than during any other campaign.

Death Due to Explosion. Albuquerque, N. M., Oct. 15.—Mrs. Louise Chamberlin, a social leader here and a sister of Perry S. Heath, former assistant postmaster general and later editor of the Salt Lake Tribune, was burned to death here last night in a fire in her home which started from an explosion of gasoline. A servant cleaning a rug with gasoline came too close to an open grate fire, and an explosion followed and Mrs. Chamberlin's clothing caught fire. She was fatally burned before help could be summoned.

INDIANA POLITICS

Indianapolis, Oct. 15.—The Republican campaign managers have laid out work for Judge Taft that it is hoped by them will hold this state in his column. It is realized that there is great disaffection among the laboring classes and that a lot of hard work must be done if enough of them are held together to carry this state for the Republicans. The Republican leaders have about exhausted every means at their command to line up the laborers, and while they say the conditions are much better than they were a month ago, they admit that they are not what they desire. Taft's itinerary will give him ample range on the laboring classes. He will have every opportunity to assure them that he is their friend and not their enemy. On the first day of his trip in Indiana next week he will speak at such labor centers as Bedford, Linton, Terre Haute, Sullivan, Vincennes, Princeton and Evansville. On his second day he will speak at Brazil, Lafayette, Frankfort, Kokomo, Muncie, Marion, Anderson, Shelbyville and Indianapolis, where there are thousands of members of the Federation of Labor. On his last day he will visit such labor centers as Richmond, Fort Wayne, Goshen, Elkhart, South Bend, Laporte, Michigan City and Hammond. This itinerary will cover practically every point that will be visited by President Gompers of the American Federation of Labor on his special train. The Republican presidential nominee and his policies are to be made paramount issues by the Republicans of Indiana during the next two weeks, it is said, in hopes of instilling such a partisan spirit among the members of the party that the drift against him will be checked.

Dallas Tyler, who has been taking an independent poll of this state, says that the Republicans are about to be struck in Indiana by a Bryan landslide. He claims that he has sources of information that are absolutely reliable and that there can be no doubt about his prediction that there is a strong drift toward Bryan. Some unique methods have been adopted by Tyler in obtaining his "dope." He employed a churchman, he says, to take a poll among the ministers of Indianapolis. The information they brought to him indicates that a large majority of the preachers here are going to vote against Taft. Tyler asserts that he has the same information from many points in Indiana regarding the ministers. Their opposition to Taft is said to be due to his affiliation with the Unitarian church. The Republican state committee has heard something of this phase of opposition to Taft, but they have not taken that feature of the campaign seriously. The Tyler poll shows that the ministers may cost the Republican presidential nominee thousands of votes and that his religious belief may have something to do with the drift against his candidacy. The Republican leaders have counted on a large church vote for their state ticket because of the enactment of the county local option law. The betting here is shifting slightly on the national tickets. On Tyler's betting board there are odds of \$150 to \$100 that Taft will carry Indiana. Up until a few days ago the Bryan backers were demanding three and four to one for their money. They are growing more confident and the chances are that they will be willing to risk two against three unless there is a radical change in conditions. A significant feature of the situation learned today from proprietors of the betting boards is that Republican politicians are taking the short-end of the offers that Taft will defeat Bryan.

Both sides are putting on all the steam they can carry. James E. Watson, Republican nominee for governor began a two-days' tour of Vigo county yesterday and was greeted by large crowds. John Sharp Williams of Mississippi and Judge Alton Parker of New York are coming into Indiana this week to help the Democrats. Ex-Mayor or Seth Low of New York is speaking to immense audiences in the larger cities of Indiana in behalf of Taft. The speaking campaign is now in full blast and the audiences are larger than they have been since 1892. Although the Democrats are making a bitter fight against Governor Hanly and are trying to show that he is the "whole thing" in the Republican campaign, the Republican leaders are said to have appealed so strongly to the governor to devote the remainder of this month to Indiana that it is likely he will cancel all his dates in other states. Over fifty counties are demanding speeches from the governor. He can't visit more than half of them, but it was said today that he will take the stump at once for the Republicans and continue in the thick of the fight until it is over. The governor, it was said, is very sanguine over conditions in Indiana and is confident that his party will win.

The Indiana Anti-Saloon League today issued a warning to the voters of Indiana that the brewers are trying to elect Thomas R. Marshall, Democrat governor for the purpose of repealing the county local option law.

PUSHING FOR THE POLE

Last Word From Dr. Cook Was a Message of Hope.

New York, Oct. 15.—The first message from Dr. Frederick A. Cook, the Arctic explorer, since he started for the pole from a point north of Etah, Greenland, on Feb. 26 last, has been received in this city. It was brought here by Rudolph Franke, who accompanied Dr. Cook on the early stage of his journey and who received it from the explorer by messengers whom he

DR. FREDERICK A. COOK sent back to the winter base, after he was well on his way to the farthest north.

The message was written on March 17 last, about three weeks after Dr. Cook had started on the last stage of his journey. It was dated "Polar Sea, North of Cape Hubbard," and said that up to that point everything had gone very well, although the weather was extremely cold. He was making a straight line for the pole at that time, he said, and expected to be back at the base late in May.

"I am making a straight course for the pole," Cook wrote. "The boys are doing well and I have plenty of dogs. I hope to succeed. At any rate I shall make a desperate effort. While I expect to get back by the end of May still I wish you to be ready to go to Acponic, the island off North Star, by the 5th of June, and if I am not back, to go home with the whalers. I think, however, we will be back."

Dr. Cook did not reach the base before Franke started for home, and no word has yet been received from him. Members of the Peary club have been considering for some time the advisability of sending an expedition in search of Dr. Cook. He was the only white man in the expedition. He had a large company of Eskimos and plenty of dogs.

Left It Still in Doubt.
Greensboro, N. C., Oct. 15.—The battle of Guilford Court House was reproduced by United States cavalry, infantry, state militia and a galling gun. The result of the battle, like that fought in 1781, is in doubt, both sides claiming victory. Colonel S. W. Miner commanded the British, while Colonel J. W. Craig commanded the American forces. About 25,000 people witnessed the battle.

PARTY OF PERFORMANCE

Republican Organization Fosters All Policies Tending to Make the Country Great and Prosperous.

The Republican is a party of action. It rests upon what it has done, and not upon what it possibly may do in the future. It has fostered everything that has tended to make the country great and prosperous. It has moved with the people. It has kept abreast of the times. It has ever stood ready to modify an old policy or to adopt a new one when the business interests of the country have needed the modification or the change. It has protected American labor by stringent immigration laws. It has protected the credit and business stability of the country by prompt declaring in favor of a gold standard, and writing it in the statutes. When the time came it promptly seized upon the time and the opportunity to begin the speedy construction of the great isthmian canal. It has never hesitated to assume a responsibility. When the cruelties in Cuba threatened the interests of America the Republican party resolved to put an end to those cruelties. When trusts sprang up it enacted a law to curb and control those trusts. When commerce was at the mercy of the railroads, it provided for a commission to regulate them. When shippers were oppressed by transportation companies it promptly enacted a rate law. It has met every emergency in war or peace, met it in a wise, prudent and statesmanlike manner. It is progressive when progressiveness means upbuilding. It is conservative when conservatism means the maintenance of peace, order and prosperity. It has been prompt without undue haste. Peace and prosperity at home—honor and respect abroad has been, is now, and always will be its motto.—Republican National Platform.

CAMPAIGN EXPENDITURES.

Democratic Party Cannot Claim Unsullied Virtue as to Source of Its Revenues.
(From Gov. Hughes' Youngstown Speech.)

"Mr. Bryan also has much to say with regard to corrupt practices and campaign expenditures. But he omits to give due credit to the Republican party for what it has accomplished with regard to these important reforms, an accomplishment the more noteworthy in the light of Mr. Bryan's reiterated criticisms of contributions to Republican campaign funds. In the State of New York a Republican Legislature in 1906 passed a statute prohibiting corporations from making any political contributions directly or indirectly, and providing that officers, directors or stockholders participating in or consenting to the violation of the law should be guilty of a criminal offense. And I know of no more drastic statute in this country with regard to the publicity of campaign contributions and for the prevention of corrupt practices than that passed in New York under Republican auspices. These were not promises of an opposition party seeking power, but enactments by a party in power securing genuine reforms. Proper recognition must, of course, be given to the patriotic Democrats who supported these reforms, but they were enacted by a Republican administration. Congress has also legislated against political contributions by corporations. Purity of elections and free opportunity for the uncorrupted expression of the popular will lie at the foundation of every reform and cannot be too carefully safeguarded. And there should be federal legislation securing proper publicity of and accounting for campaign contributions in connection with federal elections. But it must fairly be recognized that the skirts of neither party have been clean. If we search Mr. Bryan's following we shall find not a few who have sinned, and also those who, if we may judge from their local activities, are still unrepentant. The Democratic party cannot claim unsullied virtue either with regard to the source of its revenues or its readiness to receive them."

LABOR IN DEMOCRATIC STATES.

Coal Miners in Alabama Subjugated Into Cringing Dependencies.

That there's a "rift within the lute" of the Gompers proposition to deliver the labor vote of the country to Democracy is becoming more apparent. While Mr. Bryan and Mr. Gompers are making special appeals to labor, neither refers to the deplorable condition of labor in the Democratic South. Mr. John P. White, for six years president of the Iowa United Mine Workers, and now one of the national officers of the United Mine Workers' Association, who investigated mining labor conditions in the South, is not so reticent. In a recent address to Local Union No. 97 of Albia, Iowa, he told of persecutions of labor in Alabama where a coal miners strike was in progress. He is reported as saying: "The miners of Alabama have become subjugated until a majority have become cringing dependencies. At most daily some of the laboring men of that State were mercilessly shot down for daring to assert their rights as American citizens. Ninety-one members of the Mine Workers' Association were thrown into jail without having committed any crime other than becoming members of the organization." Alabama is a State absolutely under control of Bryan Democracy.

DEPUTY CLERK IS NOT THE MAN

New York Firm Called the Wrong Number When They Thought He Would Bite.

PLAN BLUE BOOK FOR COUNTY

Firm Wants to Know Who is Who in Rush County Upper Ten.

New York city used to have its "400" and inside the portals of that exclusive crowd only the ultra fashionable and ultra rich might enter. Now Rush county has a chance to have a "500" and a "Blue Book." Only the names of the richest and most prominent people will find places in the Blue Book and society will be gauged by whether or not a name can be found in the Blue Book. Dunn or Bradstreet do very well but the Blue Book will be the real social register. With the Blue Book in full force and effect no society woman would think of issuing invitations to any one whose name did not adorn one of these pages of this exclusive list.

That is, all this would come to pass if Deputy County Clerk Will McColgin was a sucker. But the trouble with the whole scheme is that the Deputy clerk says he is not a sucker, and so the hopes for a Blue Book of Rush county's high up people are doomed.

Clerk Posey has received a letter which was taken care of by his deputy, from a publishing company in New York city which goes like this:

"County Clerk, Rushville, Rush County, Indiana:

"Dear Sir—"We are writing you in the hope that you will assist in the compiling of a Blue Book shortly to be published and containing the name of 500 of the best people in your community. Your position is such that you should be able to assist in the work.

"The book, containing 500 pages, will soon go to press. It will be printed on the best paper obtainable, will be well bound and, we are sure, will meet with the approval of all.

"As county clerk, and being in charge of the tax list of the county, you will be able to assist very materially by having prepared, at our expense, a list giving the names and addresses of the taxpayers, covering both real and personal property. We want the best people in your county represented in this Blue Book, and from the tax list we should be able to get into communication with them and to find out just who's who in your county.

"The book soon goes to press and covering your community will contain 500 pages. One will be devoted to each of those subscribing for a copy at \$5. Should additional copies be desired they will be furnished at \$2.50 each.

"If you are willing to assist us in the compiling of this work, which will be a standard one and recognized by all as such, we will be glad to give you a page for yourself and family and mail you, free of charge, four copies of the book complete."

Deputy Clerk McColgin is not a timid man, but he would hesitate a long time before he undertook the proposition of making up a list of the 500 best people in Rush county. He does not care to be the power that makes or unmake a society man or woman. He washes his hands of the whole affair and if a Blue Book is published naming Rush county people who are rich and fashionable somebody else will have to collect the names.

A GREATER GLENWOOD

Glenwood, with scarcely more than 300 population, possesses about every luxury that a modern village might wish, with the additional advantage of a contiguous farmer settlement and such blessings as the rural district carries with it, says the Connersville Courier in an industrial write-up.

Transportation facilities in Glenwood are second to none. The C. H. & D. affords an outlet to the great cities east and west, and the I. & C. traction line opens up the near world. Within the corporation of the village is a saw and planing mill which operates almost incessantly the year round. This industry is owned by Orlando Nichols. Mr. Nichols, it is true, employs only three men, but he keeps them busy all of the time, and that amounts to more than if he employed ten men only part of the time.

To get off the car a stranger to the village and walk up the main street, which in reality is a country road, you would not believe that a bank would pay in Glenwood. That is precisely what T. G. Richardson thought when the Glenwood State Bank was first talked of. But the experiment was undertaken by E. W. Ansted, L. T. Bower, B. F. Thiebaud, James McCann, Mr. Richardson and others. An old building was secured and remodeled and the institution opened to the public.

"We have done a great deal better already," said Mr. Richardson, "than I expected we would in two years." As a matter of fact the bank has been opened only about a year.

This bank has for its patrons the farmers of that section. But for the farmers, there would be little use starting a bank in Glenwood.

There are a great many smaller institutions as vital to the life of Glen-

wood as the bank and planing mill. These are the elevator, owned by Jesse Murphy; the hotel managed by T. C. Rees; the postoffice, managed by M. H. Fielding, who also sells hardware. The commercial houses are A. L. Chew, A. P. Reynolds, R. E. Pyke, groceries; W. M. Combs, Perry Meek, meat markets; Dr. Dent, drugs; A. L. Chew, dry goods; Otto Cameron, harness; John Link, barbershop; Jesse Vandivier and T. C. Rees, livery stables. Drs. Dent, J. T. Paxton and Hugh Elliott are the physicians.

An old church which was abandoned several years ago, serves as a public hall, and often the citizens are entertained in this building by traveling artists.

When Glenwood built the new school building, the school authorities planned well for the future. The building contains four rooms but occupies but three. As the population of the village increases, the capacity of the building will enlarge in even ratio, and since ample room has been provided, there will be no complaint for lack of space. Ed Lewark is the principal of the schools. He is assisted by two teachers, Mr. Bottorf and Miss Trobaugh.

The Methodists and United Presbyterians have good church buildings and meet regularly.

Farm land is valuable in the neighborhood of Glenwood. Harry Neff, who owned a good farm of 160 acres adjoining the village, recently sold it for \$125 an acre. Mr. Neff disposed of all his property at public sale yesterday. The sale was largely attended and good prices were realized. He has removed to Rushville and will relinquish possession of the farm early in next month. Other farm lands in the neighborhood are held at \$125 an acre.

FALSE ALARM PROVED TO BE TRUE

Telephoned Here for Fire Engine—False in the Country and True in the City.

CORNFIELD SET ON FIRE

Cornfield on the farms of Sharp Cecil and Manford Johnson were set on fire by a train this afternoon and it is feared much damage will result.

Mrs. J. M. Stiers who was in the country were the fire started telephoned her son Wilbur Stiers who understood her to say that the kitchen at their city residence was on fire. He had the fire department out and on the way to their home in East Sixth street in a very short time. Upon arriving at the house the fire company found no blaze. Then Mr. Stiers discovered his mistake, it dawning upon him that his mother was in the country and the fire must be there.

A telephone communication proved this to be the fact. At a late hour this afternoon the farmers were still battling with the flames.

The United Presbyterian Synod closed with a final session this morning. A report of resolutions adopted will be published in the Daily Republican tomorrow.
